because the
work demands it

excellence driven by **vision**

A dream of many ideas coming together, with great passion and an opportunity ceased is how Al Furat Group was born. Our aim at building Al Furat was to create an entity independent in all aspects of vehicle conversion & coldchain engineering.

We have built our divisions in order to create the perfect utilization of our available resources and eliminate needs of sub-contracting, which in turn saves great deals of time in manufacturing. Offering quality tested & reliable products to our customers.

We have designed Al Furat to be consumer oriented from the beginning. We are developing ourselves in order to be the one stop solution to every aspect of the vehicle conversion industry. We have noticed major changes in our infrastructure, division expansions and an increase in employee numbers. These changes prove a positive motion which we continue to practice and achieve.

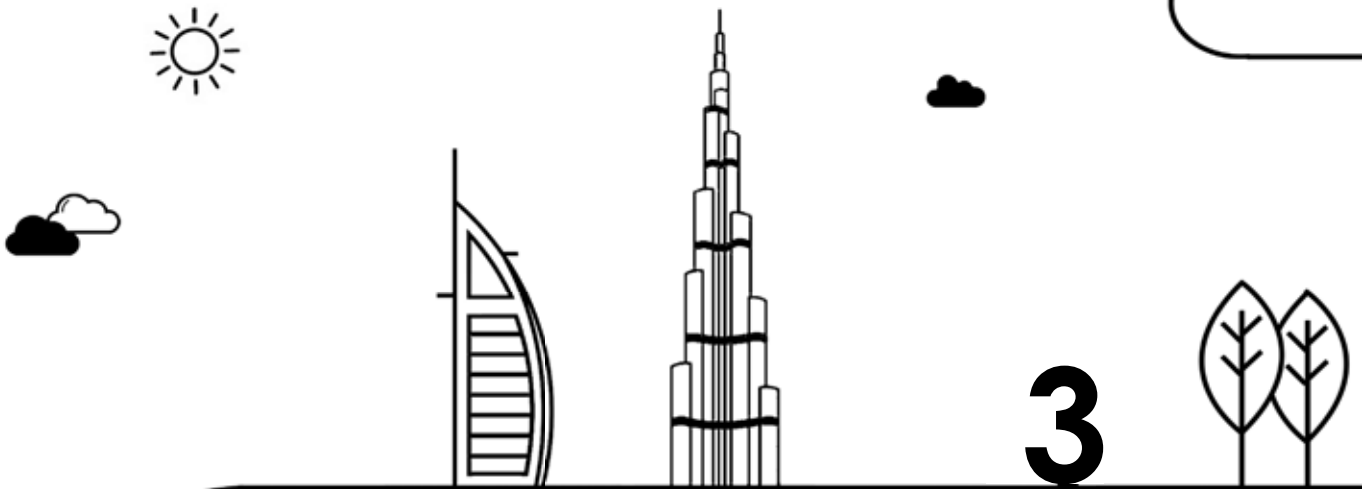

A lot has been planned and a lot of it executed, we are a very subtle organization and we like to create examples from our work, we are more practical than any industry providing our scope of services. We are expanding and will continue to do so, we continue to add new products to our portfolio.

Over the 35 years that we have been in business, i would like to thank the Rulers of U.A.E. for providing world-class infrastructure wherein opportunities were plentiful. Their vision and support has played a vital role in our growth so far and will remain going forward.

our brand is our **strategy**

Introducing Aquila: A New Era of Vehicle Recovery Solutions by Al Furat Group.

For over 37 years, Al Furat Group has been a leading name in vehicle body manufacturing in the UAE, consistently delivering quality and innovation. Building on this legacy, we are proud to introduce Aquila, a premier brand dedicated to offering light, medium and heavy duty car carrier solutions.

Aquila is designed with a focus on industry leading quality and performance, featuring Italian - engineered and manufactured hydraulic components that ensure superior functionality and durability. Each conversion is crafted to meet the most demanding operational standards, making Aquila the ideal choice for businesses seeking reliable and efficient car carrier solutions. We take pride in delivering not only exceptional performance but also competitive warranty terms, underscoring our commitment to quality and customer satisfaction.

The Story Behind Aquila

The name Aquila, meaning “eagle” in Latin, was carefully chosen to reflect the brand's core attributes: strength, precision and reliability. Just as the eagle is known for its sharp vision and prowess, Aquila embodies a blend of superior craftsmanship, cutting-edge technology and unmatched operational efficiency. This name symbolizes our mission to deliver high-performing solutions that elevate the standards of the car carrier industry. From its design to its operational efficiency, every aspect of Aquila reflects a commitment to excellence and leadership.

Aquila is not just a product; it is a testament to Al Furat Group's three decades of dedication in delivering superior solutions that set new benchmarks in the UAE market. We invite you to experience the power and reliability of Aquila-a brand that stands tall in its promise of quality and excellence.

Experience the precision, durability and performance of Aquila-designed to carry your business forward with unparalleled reliability.

customers

greater **confidence** lower costs

As a premium provider of commercial vehicles, we are responsible for the quality of our vehicles throughout their lifecycle, and guarantee our customers comprehensive support whatever their requirements are.

A network of service sites across the country is setup to provide regular service and maintenance for more than 100,000 vehicles currently in use.

More than 50 trained specialists focus on ensuring that a Al Furat truck solution remains a Al Furat truck solution. In addition, we have cooperation annual maintenance agreements with more than 350 customers, ensuring complete peace of mind on move.

Al Furat: a comprehensive range of products and services, with added value guaranteed!

A network of mobile service units are also on deployment to ensure timely turnaround of breakdown repairs on site. Our service team works relentlessly to keep your truck on road with minimum vehicle down time, saving your business time & money.

In a fast-paced & ever evolving market environment, standard solutions often are not enough. Al Furat, with technically superior products and a flexible range of after-sales services, offers support for its vehicles and customers throughout their life cycle. We stay close to our customers via our own network of service facilities spread across the country.

developing solutions with **passion**

We are constantly investing in the latest manufacturing technology so that our innovative platforms comply with our stringent quality requirements. We also pay particular attention to good working conditions, which has an additional beneficial effect on quality. We construct and produce in one location. That means we have short development paths and clear, confident cross-departmental collaboration. Our investment in an optimum production process enables us continually to manufacture innovative & improved platforms for valued customers.

It is no accident that al furat group is one of UAE's leading manufacturer of truck bodies. An important factor in this success are the many new developments that we put on the market year after year. We take a long-term view and attach great importance to research and development. Since 1988, we have been one of the major contributors successfully shaping the future of truck conversions in UAE market.

We are engaging in partnerships and collaboration with international service providers to expand our product portfolio. Moreover, we are also indulging in creative business strategies to keep improving our market share.

Lifts up to 5.7t at 4.5m / 3.2t at 8m

Experience

There's something to be said about a company who's been in business for 30 years. In fact, it's rare to find manufacturers with that kind of stability and longevity. Our stability is the result of our experience; experience that comes from working with our industry's best and brightest.

Service

We understand the need for service does not always happen during normal business hours, which is why we always have certified technicians on call around-the-clock to assist you with any support issues that may arise.

Training

Training is not a single event, but instead should be viewed as on-going investment in the skillset of your management and staff. We have certified trainers who are skilled to understand how to drive maximum benefit both for the customer and us, creating an eco-system where both the seller and buyer benefits.

Growth

We are one of the fastest-growing cold chain solution companies in the region. But we're not stopping there. We're constantly expanding our product & service offerings, growing our infrastructure, and adding new employees to service the needs of our customers.

Loyalty

Our staff is relationship-driven and customer-oriented. Every employee treats our customers like family and friends and are a dedicated and loyal part of their management team.

Creativity & Innovation

Whether it is through our weight reducing panel technology such as honeycomb, or through our tracking systems, we are constantly looking for creative and innovative ways to give our customers the edge in their cold chain operations.

Quality

Simply put, there aren't too many value-added cold chain solutions providers who do what we do. The solutions we offer are robust, adaptive, innovative, and widely regarded as the industry best. The quality of our products & services are backed by our quality certifications and customer testimonials.

Consultative Approach

We take a consultative approach in guiding our customers to making the best decisions for their business. From purchasing the right products, to planning, to implementation, our staff will assist you with the industry's best practices.
